- Computing Frustrations
  - "Blue Screen of Death" (see lecture slides for sample)
  - VXD – Virtual Device Driver
  - VNM – Virtual Memory Manager
  - Review of: Device Driver, Virtual Memory
  - Windows NT "Stop" error – similar to BSOD
  - Error Messages
- Lecture Review
  - Lecture 1 - Hardware
    - Binary
  - Lecture 2 – Hardware
    - Where to go to buy a computer
    - Scouring the net for hardware deals (techbargains.com, fatwallet.com)
  - Lecture 3 – Movie night!
    - "Pirates of Silicon Valley"
  - Lecture 4 – The Internet
    - Spam
    - Phishing/attacks
    - Networks – LANs, WAN, WLAN
    - Communication Protocol – http, FTP
  - Lecture 5 – Internet, continued
    - Crimping Network cables
  - Lecture 6 – Surprise
    - TFs vs. the Students – The TFs won!
  - Lecture 7 – Multimedia
    - Nice job on the banners. Best we've seen yet (and we don't say that every semester)
    - Video – RealVideo, Quicktime, Windows Media
    - Audio – WAV, MP3
    - Vector – Flash
  - Lectures 8 & 9 – Security
    - Viruses – malicious piece of software that self-replicates but spreads through human intervention.
    - Worms – much scarier, they spread on their own
    - Spyware
  - Lecture 10 – Website Development
    - XHTML, CSS
  - Lectures 11 & 12 – Programming
    - This semester is the first time we got a perfect count from the "self-counting" algorithm from lecture!
    - Just an intro to Javascript – there are entire semesters on programming
    - "It's Peanut Butter Jelly Time"
      - Watch the TFs make a mess of things while making PB&J sandwiches

- Lecture 13 – Dotcoms/Movie Night
  - "Startup.com"
- Lecture 14 – Tonight – Computer Science
  - If you're interested, continue taking computer science classes
  - Thank yous:
    - TFs
    - Videographers
  - Mousepads – Congratulations Tara!
