

Where's Lecture 3?

Lecture 3: Software was the first of two movie nights for Computer Science E-1! 'Twas a look at “how modern day visionaries Bill Gates and Steve Jobs changed the world” by way of *Pirates of Silicon Valley*, a dramatization of the history of Microsoft Corporation and Apple Computer, Inc.

For reasons of copyright, this lecture was not filmed or otherwise recorded.

Stay tuned for next week's Lecture 4: The Internet!
